STABILITY LETTER
ADDENDUM

16710/P011727
Serial: H1-1103205
December 1, 2011

Master, ECO ISLENO, O.N. 1094902
Gold Coast Yachts Hull No. GC15WP0894
45' x 16' x 4.4' Catamaran Small Passenger Vessel (T)

Calculations have been performed to demonstrate compliance with the passenger weight requirements of 46 CFR 170.090. Results indicate that, when operated in accordance with its current stability letter, dated February 15, 2006, and any further restrictions indicated below, the stability of the ECO ISLENO remains satisfactory for operation on Exposed Waters. You are responsible for maintaining this vessel in a satisfactory stability condition at all times and for following the instructions and precautions listed below.

OPERATING RESTRICTIONS

1. PERSONNEL: A maximum of 27 persons, of which 25 may be passengers, may be carried. These numbers are based on an assumed weight of 185 pounds per person. Since the personnel capacity is based upon other considerations in addition to stability, you are cautioned that the number of persons carried may be further limited to that specified on the Certificate of Inspection.

This stability letter addendum should be posted under glass or other suitable transparent material in the pilothouse of the vessel so that it and all pages of the stability letter are visible.

A handwritten signature in black ink, appearing to read "W. R. Arguin Jr.".
